*1: These are Menu Waveforms. Many different Waveforms are provided, each one assigned to a different key.

*2: These are the phrase loop waveforms. The numbers (120-180) included in the wave name represent the B.P.M. (tempo) when played at the C4 key. These waveforms can be synchronized to a device such as a sequencer when used with the XP-30/60/80 and JV-1010/2080 synthesizers.

#: This waveform was selected from the CD-ROM "DISTORTED REALITY" from Spectrasonics. When you create a Patch using the waveforms stored in the Expansion Board, observe the following points: * If you make a Patch with a single voice and then later play it in a chord, the sound may be distorted with certain settings for the Effects and TVA. If this happens, adjust the level of the Effects and TVA.
